No App. No OTP. No PIN

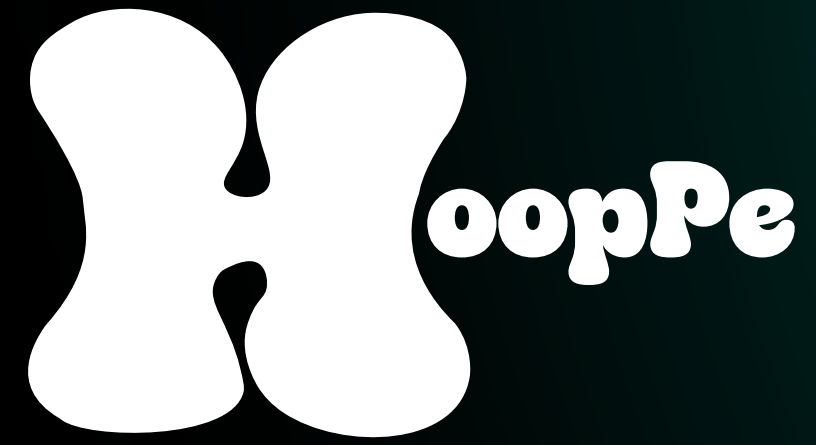

With Hoop Ring, approve up to \$5K USDT payments globally—just tap & go.

HOOP Ring needs zero charging—harvesting power from POS machines on contact. The ultimate ‘always-ready’ crypto payment wearable.

No Bluetooth. No pairing. No Charging.

NFC Meets Blockchain.

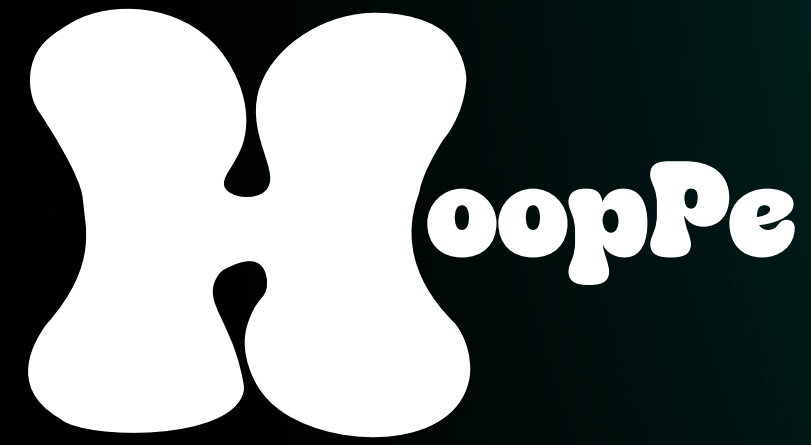

HOOP Ring's NFC chip—the gold standard in payments—now fuels frictionless crypto spending. Blockchain security, without the banks, OBVIOUSLY!

If your fingers are straight, your money is safe.

HOOP Ring is designed in such a way that it will function and transmit data for making a payment efficiently when you make and place your fist on the POS machine, in such a way that your HOOP Ring becomes parallel to the contactless symbol.

No accidental taps. No sketchy scans. HOOP Ring ignores all commands—until your knuckles kiss the POS just right. Decentralized payments demand decentralized security.

Note:

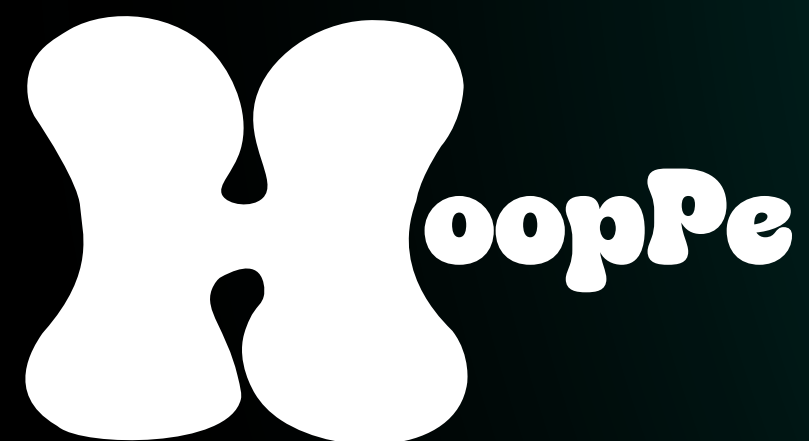

1. Multiple top-ups are permitted.
2. You have all 150 days to refer 10 individuals, till your package matures.
3. 11th direct referral onwards, you keep getting 11% instantly on every top-up and re-top-ups done by your direct referrals.
4. Daily ROI on every top-up will be generated separately.
5. Maximum daily ROI of any top-up can be 3.5% starting from 1 and boosting with 0.25% on every direct referral made.
6. If you have multiple packages like, \$10, \$50, \$100 and \$500, and you bring one \$10 package activation in your direct referrals, then only the daily ROI of \$10 will be increased by 0.25%.

Examples:

- You bring \$500 package activation in your direct referrals, then only the daily ROI of your \$500 package will be increased.
- Your only self-package is \$10, and you bring \$500 package activation in your direct referrals, in this case also, your daily ROI will be increased respectively.
- Your only self-package is \$100, and you bring \$50 package activation in your direct referrals, you will not get any raise in your daily ROI percentage, but you will still get 11% instantly.
- You have two similar packages activated in your account let's say \$100 each, and you bring multiple \$100 or above package activations in your direct referrals, in this case the ROI of your 1st package will boost continuously till the daily ROI reaches to 3.5%. Once the 1st package's ROI reaches 3.5% daily after that your 2nd package's daily ROI will increase if you add more new referrals in the future.

In conclusion, your direct referral's package amount must be equal or higher than your smallest package amount (\$10) to qualify for ROI booster.
